x3 90kg Tanks to be Hired

Wilka Thalta means *Hungry Kangaroo* in Paakantyi language, our totem.

Wilka Thalta
SITE KITCHEN

Wilka Thalta is a mobile commercial kitchen operation built up of Food Trucks & on-site Canteens servicing the Construction Industry & Public/Private Events sectors predominantly. Being full commercial kitchens that operate off-grid (if need be) allows us to operate virtually anywhere for private use, as well as attend public events, shows, festivals & markets.

We pride ourselves on our customers experiences being exceptional as a whole, focusing on the quality, service & cleanliness of our facilities, products & staff. Our great versatility in food offerings means we'll always have something for everyone as opposed to many on the market who focus on one particular style of food service or cuisine.

Our fully trained, professional Hospitality staff are all accredited with the required training to fulfil their roles beyond customers expectations, delivering a truly remarkable experience each and every time.

The **Wilka Thalta Site Kitchen** is a transportable semi-permanent commercial kitchen that can be relocated on construction sites for long term projects as a day to day canteen facility for staff & contractors serving up breakfast, smoko, lunch & even dinner for up to 1,000 people a day with our set menu.
